

**Bracelet Radana**  
by Alexis  
© 2008

Materials (for a bracelet of 5,5 inch/14 cm without closure)

-  11/0 seed beads sb
-  3 mm round beads (44) RB
-  3 mm faceted beads (42) FB3
-  6x3 mm „Wheels“ (23) W

A scan of the „wheels“

**Closure bead**

-  4 mm faceted beads (4) FB4
-  11/0 seed beads (8) sb

I used 0,2 mm fishing line, but you have to be careful about tension – it stretches and if you use too much tension, you get a rubber band effect.

1. One W in the middle of the thread, one sb, one RB, one sb on each thread, cross in a new W – go on until you reach the end of your bracelet.

2. Go through the sb and RB on the sides. I went through two bead sets on the right site, then two on the left to get an even tension.

3. Add 4 sb, go down through the sb on the side of the RB and up again.  
\*Add one sb, go down through the next sb and up through the one just added.  
Add 3 sb go down through the sb on the other side and up through the last sb.\*  
Repeat from \* to \*

(It doesn't matter whether you follow the red or the blue thread path.)

4. Go through the upper two sb above the RB and add FB3 in between.

5. In reality I did this step after adding the closure bead (see next page), much easier to see how many beads you need for the loop. Closure loop: add 2 sb on the sides, one sb to cross and the beads for the loop (18 in my case). Cross through the crossing bead and go through the 2 sb on the sides again.

6. Add one sb and go through the existing beads to bury your thread ends.

## The closure bead:

1. Take one FB4 to the middle of the thread, \*one sb on the right thread, one sb on the left thread, cross in a new FB4\*. Repeat \* to \* until you have four FB4, add one sb to each thread and cross in the first FB4.

2. Go through the four sb on top and on the bottom. Then go up with the bottom thread through a FB4 and one of the upper sb.

3. Cross in a new sb to embellish the top.

4. Go down through the FB4 on the sides and through one of the bottom sb.

5. Add three sb to both threads, two sb to each thread and cross through the W. Go through the sb at the sides of the RB. To adjust the length of the bracelet you can take three or four sb instead of the two on each thread. The same goes for step 5 on page 2 (for the closure loop).

6. Add one sb and go through the existing beads and bury your thread ends.
